

Overcome the challenges of cloud migration

For federal agencies, cloud migration can become a monumental endeavor, especially when it comes to moving infrastructure, data and applications. Building a bridge to the cloud requires a partner with federal IT expertise and a defined methodology to simplify the process—and Force 3 can deliver.

MOVING TO THE CLOUD IS A BIG CHALLENGE FOR THE PUBLIC SECTOR

Despite the urgency of IT modernization and the federal government's cloud-first mandate, most agencies still find themselves lagging when it comes to cloud migration and adoption.

HERE ARE SOME REASONS WHY

SECURITY REQUIREMENTS

Adhering to federal security requirements can seem challenging for would-be cloud adopters.

SENSITIVE DATA

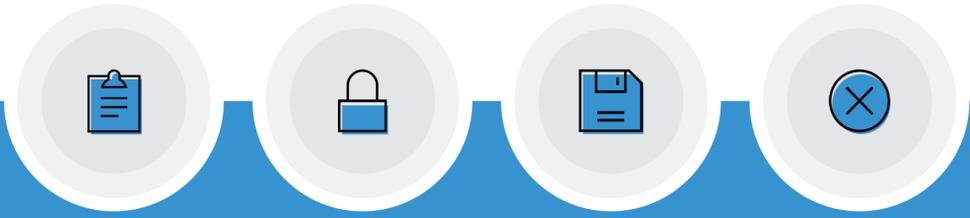

Federal IT teams are still grappling with the notion of migrating sensitive data outside their data center.

LEGACY IT

Not all legacy infrastructure and applications were built to run effectively in the cloud.

SKILLS AND STRATEGY

Many agencies lack a cloud migration strategy or the necessary skillsets on staff.

IN A RECENT SURVEY, ONLY 10% OF GOVERNMENT RESPONDENTS SAID THEY'VE MOVED A MAJORITY OF THEIR APPS TO THE CLOUD.

LET FORCE 3 HELP

Designed specifically for federal missions and workloads, our cloud transformation and migration methodology can help your agency create a unified strategy to overcome these challenges and start along the path to the cloud.

ASSESS

Assess your workloads and apps to prepare a plan for private cloud migration, and, ultimately, the public cloud when the time comes.

IMPLEMENT

Prioritize apps, develop a roadmap, and help implement the migration through an automated and seamless process.

OPTIMIZE

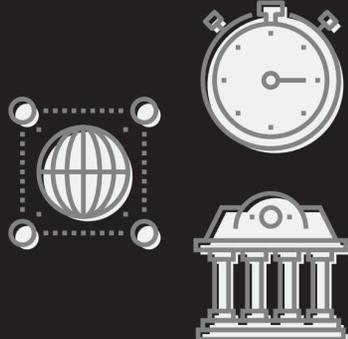

Review migration data, fine-tune compute resources, and prepare to migrate other workloads once they're ready.

SECURE

Provide a security review, recommend policies or products, and act as a safety net to ensure your entire cloud is secure.

OUR METHODOLOGY HELPS YOU LEVERAGE THE CLOUD TO:

- ▶ **Modernize** your IT infrastructure.
- ▶ **Achieve** mission objectives faster.
- ▶ **Flexibly access** the latest technology and architectures.
- ▶ **Comply** with federal mandates.
